Studying with a Baden-Württemberg-STIPENDIUM

As one of the major foundations in Germany, the Baden-Württemberg Stiftung supports the international exchange of students and workers. Its Baden-Württemberg-STIPENDIUM (scholarship) is unique throughout Germany. This scholarship programme enables young people from Baden-Württemberg to spend time abroad and international scholarship holders vice versa to get to know Baden-Württemberg. For this purpose they receive a scholarship amounting to up to EUR 1,400 per month for a maximum of eleven months.

Baden-Württemberg is one of the leading economic regions in Germany and Europe, characterised by its strength of innovation, cutting-edge inventions and high productivity. Moreover, the state offers an exceptionally high quality of life, including a wide range of cultural and recreational options, beautiful nature and stunning landscapes.

With more than 70 institutions of higher education and over 100 non-university research institutions, Baden-Württemberg is one of the top science locations in Germany. Teaching and research are closely intertwined here and the incorporation of research findings into teaching practice guarantees that students benefit from top-notch research directly, thus ensuring the high quality of education.

All different kinds of institutions of higher-education are available here for students as the best possible starting point for a successful professional career:

**RESEARCH UNIVERSITIES:** The nine research universities are characterised by theory-oriented education and the interlinkage of teaching and research on a high level.

**UNIVERSITIES OF APPLIED SCIENCES:** A combination of scientific education and project-oriented learning establishes a close link to professional practice.

**BADEN-WÜRTTEMBERG COOPERATIVE STATE UNIVERSITY (DHBW):** With nine different locations, the DHBW is the first and only state-owned ‘dual’ university in Germany, whereby ‘dual’ refers to the combination of academic studies and on-the-job-training.

**UNIVERSITIES OF EDUCATION:** Due to their high-quality and their practice-oriented degree programmes, these universities of education enjoy a very good reputation for teacher training.

**UNIVERSITIES OF ARTS AND MUSIC:** The educational facilities and degree programmes offered by the eleven universities of arts and music cover the whole range of options that art and music students look for.

**PRIVATE UNIVERSITIES:** Most of these institutions specialise in a specific area, where they offer both undergraduate and postgraduate programmes.

---
